THEY MADE A MISTAKE

There Is No Irregularity In the
Jail Election.

THE PROSECUTOR'S PRECAUTION

Every Phase of the Subject Has Been Care-
fully Passed Over, and He Has No Reason
to Believe He Has Not Taken the Right
Course—Salem Objected.

The Salem Herald of yesterday states
that an official of that place has received
a letter from the secretary of state in
which the statement is made that the
call for the election on jail bonds is
irregular. He holds that the call should
have been made through the supervisors
of election, which was in this instance
not done. On this ground the secretary
holds that judges and clerks of election
need pay no attention to the vote on the
jail, says the Herald.

The statement caused some indignation
among the many people who are
interested in the project to build a jail,
particularly at the court house where the
officials are all in favor of the plan.
Prosecutor Speaker, who made the ar-
rangements for the election, stated that
he had provided for every emergency,
and there was no danger of the ballots
being ignored by the election officers
throughout the county next Monday. He
is working directly with Secretary Han-
ley, of the deputy supervisors, and the
tickets to be used have the endorsement
of the proper authorities. When the
regular tickets for the spring election
were sent out, Mr. Speaker arranged to
have the tickets dealing with the jail
question go with them. The gentleman
declared that he and the commissioners
knew exactly what they were doing
with the matter, and there was not now
danger of error. The election is con-
ducted under a law enacted before the
Australian ballot law, but will be in
compliance with it. "There has been no
lack of precaution," said the prosecutor
to the News Review this morning.

James N. Hanley, clerk of the board,
said the supervisors of election knew
nothing officially of any protest or in-
structions from the secretary of state.
They understood the election was to be
held by the commissioners, and was out
of their province.

ployees of the opera house will play a

ANOTHER MEETING

Was Held by the Local Telephone Com-
panies.

One of the local men who is interested
in the combination of home telephones
for the purpose of fighting the Bell in
Western Pennsylvania, Ohio and Indi-
ana, attended a meeting in Pittsburgh
last night, but had nothing to say when
questioned about what they had done.
He reiterated, however, that the com-
bination would be effected, and there
would be strong competition within a
year or two. The meeting last
night was for the purpose of hearing
officially from the men who attended
the New York meeting a few weeks ago.

ONE MAN REFUSED

To Donate His Lot In the Old Cemetery to
the Ladies.

The hospital committee meeting held
yesterday afternoon at the home of Mrs.
Agner, Fourth street, had a full attend-
ance. The ladies reported that they had
met with flattering success in securing
the donation of lots in the old cemetery,
and in only one instance were they re-
fused unless they paid for the lot.

TORONTO'S TEAM.

Local Players Will Help to Make It a
Strong One.

Toronto will have one of the strongest
baseball teams in the Ohio valley this
season. Reark, McShane and Smurth-
waite will play with them.

It looks very much as though Will
Carey has been dropped from the
Wheeling team as his name does not ap-
pear in their published list of players.

The first ball game of the season was
played yesterday afternoon at West
End park between two picked nines.

A letter has been received from the
manager of the Scio college baseball
team wanting a date here in the early
part of May.

GRANDFATHER'S CLOCK.

The Story of the Tickers, as Told By the
Evangelist.

There was a nice audience at the
Methodist Protestant church last night
to hear Evangelist Naylor deliver his
lecture entitled "Grandfather's Clock."
The vocal and instrumental music was a
very pleasing feature. The lecturer
made many happy hits, and was the
recipient of hearty applause. He com-
pared humanity to clock cases
and clock works, and did it
in a manner which was both
instructive and highly amusing. He de-
scribed Wilberforce as a clock whose
sonorous stroke awakened humanity and
delivered myriads of slaves. Then came
a description of Florence Nightingale
as a sweet toned clock, striking gently
and steadily and bringing comfort and
relief to the suffering and dying soldiers
of the Crimean war. The speaker de-
scribed William E. Gladstone as a clock
whose ticking and striking caused the
entire civilized world to listen and count
and measure the strokes and estimate
their wonderful value, especially in the
late utterances which caused England
and her navy to recede from the support
of the cruel, infamous, infidel Turk.
The evangelist was heartily applauded
for his utterance respecting the grand
old man. Then came a grand eulogy on
Abraham Lincoln, as a clock whose
ponderous stroke caused the shackles to
drop from the limbs of thousands of
slaves and made the martyred presi-
dent's name immortal. It was a warm
tribute to the memory of the man
whom Americans delight to honor, and
the applause which answered it was
long continued.

Reverend Naylor will deliver his fare-
well address tonight, commencing at
8:30, in order that those who are at-
tending prayer meeting at other
churches may have the opportunity of
hearing the evangelist and bidding him
goodby. You are cordially invited.

NEXT TUESDAY

The Curfew Ordinance Will Go Into
Effect.

Next Tuesday evening at 5:30 o'clock
the curfew ordinance will become a law.
Chief Johnson is at present pondering
over the exact meaning of the ordinance.
It says that all children under 16 years
of age shall not be on the streets after
9 o'clock in the evening in the summer,
and 8 o'clock in the winter, instead of
reading "between the hours of 9 p. m.
and 7 a. m. and 8 p. m. and 7 a. m.,"
like all other ordinances are worded. In
the opinion of the chief this makes it
possible for the children to remain off
the streets until midnight, and then
appear again and the police officers are
powerless to arrest them. It is probable
the mistake will not make any difference
whatever, as the ordinance will answer
all the purposes for which it was passed.

MISS SHONTZ WAS LATE.

But Those Who Heard Her Were Ample
Repaid For Waiting.

A large audience was present at the
First U. P. church last evening to hear
Mrs. Eva Marshall Shontz, reader.
The lady did not arrive in the city until
the 8 o'clock train, and it was 8:50 be-
fore Mrs. Howard, president of
the Woman's Christian Temperance
union, introduced the speaker.
All were amply repaid for their
long wait, as Miss Shontz is an elo-
quent of exceptional ability, and moved
her audience to tears by her wonderful
portrayal of the misery caused by the
saloon evil. She has the faculty of car-
rying an audience with her, and there
was not a person present last evening
who does not feel today that he was
benefited and is better able to fight the
national curse.

SHE WANTED TO DIE.

But Friends Administered a Powerful
Emetic.

The domestic in an uptown residence
decided yesterday afternoon that her
young life had been blasted forever, and
she could find no better remedy than a
dose of poison. She secured the stuff,
went to her room and swallowed it.
Luckily her ignorance of poisons had
not allowed her to secure a fatal dose,
but what she did take made her very ill.
Her groans attracted attention, and she
was saved by a promptly administered
emetic.

Business Is Very Good.

There were 40 cars handled in the
yards yesterday. Seventeen cars ar-
rived, 22 were loaded in the sheds and
five on the siding. The shipments this
morning were a little slow. Quite a large
order was sent to Vancouver, B. C.

SAFETY GATES NEEDED

People Want Them Along the
Horn Switch.

THE DANGER NOW IS GREAT

There Is More Switching Than Ever, and
the Track Makes Travel Very Dangerous.
A Petition Will Go to Council Within a
Short Time.

There is a movement among residents
of the hill districts which will likely re-
sult in a petition to council asking that
safety gates be placed at crossings on
the Horn switch.

They want gates at the Eighth, West
Market, East Market and Walnut street
crossings, and believe that the number
of narrow escapes from death or
serious injury make ample cause
for action on the part of council.
The grades of all these streets near
the switch are such that a wagon once
started down the hill can only be stopped
with the greatest difficulty before cross-
ing the track. Many times have team-
sters narrowly escaped during the past
few months, and it is from them the de-
mand for gates first came. The switch
is used almost as much as the main
line, and since the yards were
placed on the hill a great deal of
switching is done. No precautions
against accident are ever taken, and it
is no fault of the railroad company that
many accidents have not happened. At
one of the crossings the danger sign re-
quired by state law has been down for
two weeks. A resident of the hill who
has just cause for complaint said today
that the question would be agitated un-
til something was done.

FIRE EXTINGUISHERS

Will Soon Be In Every Passenger Car In
Ohio.

Passenger cars running in Ohio must
be equipped with fire extinguishers. The
law says so, and Railroad Commissioner
Kaylor proposes to carry out the law.
When Mr. Kirkby went out of office,
steps in the direction of this had been
taken, but no device had been definitely
settled upon. Mr. Kaylor proposes to
adopt some extinguisher meeting the
requirements as soon as possible, and the
companies will then be notified to put
them in. The law provides that one car
at least on every train must be provided
with an extinguisher, to be put in place
by April 1, 1897. Owing to the near-
ness of that time, the limit for the law
to become operative will no doubt be
extended.

ON THE FORCE.

James Moffatt May Become a Railroad
Detective.

James Moffatt, who is well known to
almost everyone in the city and who
served the county long as deputy sheriff,
may become a Cleveland and Pittsburg
detective. Mr. Moffatt has been offered
the place, but has not yet decided
whether he will accept.

The police department of the Cleve-
land and Pittsburg is organized like
that of a city. There is a chief who
has under his supervision lieutenants
and detectives. The system was
inaugurated several years ago, and has
proved very successful.

THREE WERE CONFIRMED.

Bishop Leonard Preached an Eloquent
Sermon.

St. Stephen's Episcopal church was
crowded last night, the occasion being
the confirmation of a class of three.
Bishop Leonard delivered a scholarly,
eloquent address, his subject being one
which permitted the exercise of those
oratorical powers for which the gentle-
man has long been famed. The music
was of a high order, and the service
throughout was greatly enjoyed.

Bishop Leonard left this morning for
his home in Cleveland.

ALL OVER TOWN.

Scores of Cases of Measles but No More
Fatalities.

The epidemic of measles shows no
signs of abating, and new cases are re-
ported to the health authorities every
day. Doctor Ogden added six to his list
yesterday, and at a late hour this after-
noon had five more. As a rule these
cases are not considered serious by the
physicians, but in several instances
children have recovered when it was be-
lieved they would die. The disease is
seriously affecting attendance at the
public schools.

AT MANLEY'S COURT.

Five Cases Entered Yesterday to Recover
Lucas.

In Squire Manley's court a number of
civil cases have been entered.
James Prosser obtained judgment for
\$2 against Elwood Pussey, the latter to

pay all costs. Thomas Starkey has
charged George Wynne with forcible
detention. George Maul has sued J. B.
Rayl to recover \$4.50. It will be heard
tomorrow. The Burford Pottery com-
pany has a claim of \$21.99 against Joseph
Hanlon. The hearing is set for Friday.

THINKS HE IS ALL RIGHT.

A Kind Word For a Well-Known Wheel-
man.

The Pittsburg Times has this to say of
a young man well known in this city:
"Clint C. Aughenbaugh, whose trans-
fer from the amateur to the professional
class was one of the last falls of Gideon's
ax, is considered the speediest wheel-
man in Western Pennsylvania. While
in the amateur class he accumulated
everything in the way of prizes from
cottons to bread and butter. Now that
he is among the 'pros,' he is expected to
sweep the minor circuits. His record
last year was splendid. He made 45
starts in 14 race meets. He took 33 firsts,
4 seconds and 4 thirds. The total val-
uation of his prizes was \$1,052. He rides
an Andrae, with Palmer tires, at 80 gear.
Aughenbaugh is 21 years old, 5 feet 9 1/2
inches high, and riding weight 160. If
he takes time to go after cash prizes, he
will be one of the early tape crossers in
the interstate professional bicycle circuit
recently formed."

FILED TWO SUITS.

Livermen Take Their Side of the Vehicle
License to Court.

Attorney J. H. Brookes today filed
two suits against the city of East Liver-
pool and A. V. Gilbert as mayor.

J. D. West, as undertaker, sues to re-
cover \$17.75, and John Rinehart, as
liveryman, asks \$24.75, paid to the city
for vehicle licenses.

The petition says that they recognize
the right of the city to charge a reason-
able license fee, and that the 25 cents
paid to the mayor is a fair and reason-
able cost, but that the amount over and
above is a tax which the city has no
right to assess. The cases, as in the
Robert Hailes case, are test suits, and
should the plaintiffs win it means a vic-
tory for all undertakers and liverymen.

MISSED THE TRAIN.

But a Passenger Was Kind Enough to
Throw Off His Baggage.

Tongmie Amos and H. Brown were to
go to East Palestine yesterday afternoon,
but they lingered too long by the way-
side and missed the train. The baggage
was placed on the rear platform, but the
men failed to board the train. A pas-
senger saw the plight of the men, and
kindly kicked off the baggage when the
train reached Second street. The grip
was broken open by the fall, and the
effects of Amos were scattered over the
street.

IT'S A DANGEROUS PRACTICE.

This Fast Driving Through the Business
Section.

A number of parties who own fast
roadsters have started the season with
more reckless driving than has been seen
in the city for many a day. Dash-
ing down Fifth street at a wild pace,
they turn into Market street and the
Diamond regardless of the danger to
pedestrians. Sixth street is also a favor-
ite speeding ground. The police should
enforce the ordinance. After someone
has been killed it will be too late.

THEY BOUGHT BOXING GLOVES.

And Now One of Them Wears Court Plaster
Over His Eye.

The clerks in several uptown stores
have purchased a set of boxing gloves.
This morning a clerk and the proprietor
had a bout during which time they
clinched, and the affair turned into a
wrestling match. In falling the clerk
struck a desk, and he is now wearing a
court plaster over his eye.

THE EVANGELIST'S MEETINGS.

Services This Morning and This After-
noon.

This is the last day Reverend Naylor
will hold services in the city, and the
meeting tonight ends his work here.
Reverend Gamesfelder preached at the
Methodist Protestant church this morn-
ing, and Doctor Reager, also of Wells-
ville, was expected this afternoon, but
could not be here. Services were also
conducted this afternoon.

Only a Rumor.

Someone notified Mayor Gilbert by
telephone this afternoon that the body
of a boy had been found floating in the
river. A diligent search failed to locate
the body.

Only a Mistake.

George Morton, John Morton and
Dick Campbell are fishing this afternoon
at Beaver creek. Mr. Morton discovered
after his return home Wednesday that
he had not lost his glasses, as he had not
taken them with him.

MARTIN AFTER MONEY

Suit Was Brought Against
Jesse Kepner.

HE THINKS HE CAN COLLECT

The Full Amount of the Judgment Ob-
tained in Court a Few Months Ago.
Property in Salem and Hanover—Rolling
on an East Liverpool Case.

LISBON, March 31.—[Special]—Judge
Smith has decided that the suit brought
by J. B. McKinnon against the Pennsylv-
ania company, operating the Cleveland
and Pittsburg, and John W. Croxall,
should be dismissed so far as Croxall is
concerned. The action was filed a year
ago to compel Croxall to make
good a covenant of warranty to de-
fend a part of lot 42 in
East Liverpool against the claims of the
company. McKinnon purchased the
property from Croxall, and the railroad
has for years kept him out of the posses-
sion of it. Damages to the amount of
\$500 were asked from Croxall.

Suit was commenced in court this
morning by John R. Martin to recover
from Jesse Kepner the \$10,924 judgment
rendered him Jan. 29 by forcing to sale
lots in Salem. The judgment was given
as a result of Martin's suit to recover
the county treasury deficit of three years
ago, and an execution issued on this
property was returned unsatisfied, owing
to some claim held by the First National
Bank of Alliance. Martin's judgment
is alleged to be the first lien, and the
bank is made a defendant to the action.
Vendi expons proceedings have been insti-
tuted by Martin against 28 acres of land which Kepner
has in Hanover. This will also be
forced to sale as soon as approved. It
is claimed that the full amount of the ver-
dict can be recovered.

James Bale, who was convicted in the
court of Mayor Jones, Wellsville, of
obtaining money by false pretense from
A. J. Dawson, was brought to Lisbon
jail yesterday.

Mrs. Mano Tullis, wife of Contractor
Tullis, died suddenly in Salem this
morning. Deceased was formerly
Miss Dunn, of this place, and has been
married but two years.

Charles W. Harris and Lena Rubble
were married by Rev. J. T. Morton. G.
L. Carlo and Alice Hannan were
married by Rev. J. P. Anderson. The
parties are all from Salem.

J. R. WARNER.

Our Well-Known Townsman, Will Quit
the Shoe Trade.

Business men of East Liverpool and
citizens in general will learn with re-
gret that J. R. Warner, the well-known
and justly-popular shoe merchant, will
close out his interest in the business in
this city as early a date as possible.
Rumor has it that he will engage in a
new venture, but not in this immediate
section. The gentleman was inter-
viewed by a News Review representa-
tive this afternoon, and acknowledged
that his retirement from the shoe busi-
ness will soon be an accomplished fact,
as he expects to close out during the
next three months. Referring to his
entering into other business, the gentle-
man smiled a smile that was child-like
and bland, and gently intimated that the
pencil shaver was venturing on forbid-
den ground, and that further informa-
tion might be forthcoming in the not
distant future.

J. R. Warner has made a host of
friends in this section during the past 18
years, and "Jeff," as he is best known
by those who have his close acquaint-
ance, will carry with him the good
wishes of one and all. He has won an
enviable name as a fair and square
dealer. The News Review has found
him a staunch and true friend. He de-
serves success, and we hope that he will
have it in full measure. "Jeff"
bears the reputation of being ex-
tremely fortunate in his enterprises;
so much so that a prominent merchant
was heard to remark the other day:

"If Warner should fall into the Ohio,
he's so confounded lucky that he
wouldn't even get wet."

May his good luck, fortune, or what-
ever it may be, follow him all his days.

Some Were Successful.

The list of the successful candidates
who recently passed the civil service ex-
amination was returned yesterday from
Washington. They are Edward Gould
and Homer Owens, carriers; Charles
Eaton, East End, and Harry Wildblood.
Eight persons took the examination.

No Meeting.

A general impression seems to prevail
that this is the regular meeting night
of Trades council. Such is not the
case and five Wednesdays in this month
caused the trouble.

delivered myriads of slaves. Then came
a description of Florence Nightingale
as a sweet toned clock, striking gently
and steadily and bringing comfort and
relief to the suffering and dying soldiers
of the Crimean war. The speaker de-
scribed William E. Gladstone as a clock
whose ticking and striking caused the
entire civilized world to listen and count
and measure the strokes and estimate
their wonderful value, especially in the
late utterances which caused England
and her navy to recede from the support
of the cruel, infamous, infidel Turk.
The evangelist was heartily applauded
for his utterance respecting the grand
old man. Then came a grand eulogy on
Abraham Lincoln, as a clock whose
ponderous stroke caused the shackles to
drop from the limbs of thousands of
slaves and made the martyred presi-
dent's name immortal. It was a warm
tribute to the memory of the man
whom Americans delight to honor, and
the applause which answered it was
long continued.

Reverend Naylor will deliver his fare-
well address tonight, commencing at
8:30, in order that those who are at-
tending prayer meeting at other
churches may have the opportunity of
hearing the evangelist and bidding him
goodby. You are cordially invited.

NEXT TUESDAY

The Curfew Ordinance Will Go Into
Effect.

Next Tuesday evening at 5:30 o'clock
the curfew ordinance will become a law.
Chief Johnson is at present pondering
over the exact meaning of the ordinance.
It says that all children under 16 years
of age shall not be on the streets after
9 o'clock in the evening in the summer,
and 8 o'clock in the winter, instead of
reading "between the hours of 9 p. m.
and 7 a. m. and 8 p. m. and 7 a. m.,"
like all other ordinances are worded. In
the opinion of the chief this makes it
possible for the children to remain off
the streets until midnight, and then
appear again and the police officers are
powerless to arrest them. It is probable
the mistake will not make any difference
whatever, as the ordinance will answer
all the purposes for which it was passed.

MISS SHONTZ WAS LATE,

But Those Who Heard Her Were Ample
Repaid For Waiting.

A large audience was present at the
First U. P. church last evening to hear
Mrs. Eva Marshall Shontz, reader.
The lady did not arrive in the city until
the 8 o'clock train, and it was 8:50 be-
fore Mrs. Howard, president of the
Woman's Christian Temperance
union, introduced the speaker.
All were amply repaid for their
long wait, as Miss Shontz is an elo-
quent of exceptional ability, and moved
her audience to tears by her wonderful
portrayal of the misery caused by the
saloon evil. She has the faculty of car-
rying an audience with her, and there
was not a person present last evening
who does not feel today that he was
benefited and is better able to fight the
national curse.

SHE WANTED TO DIE,

But Friends Administered a Powerful
Emetic.

The domestic in an uptown residence
decided yesterday afternoon that her
young life had been blasted forever, and
she could find no better remedy than a
dose of poison. She secured the stuff,
went to her room and swallowed it.
Luckily her ignorance of poisons had
not allowed her to secure a fatal dose,
but what she did take made her very ill.
Her groans attracted attention, and she
was saved by a promptly administered
emetic.

Business Is Very Good.

There were 40 cars handled in the
yards yesterday. Seventeen cars ar-
rived, 22 were loaded in the sheds and
five on the siding. The shipments this
morning were a little slow. Quite a large
order was sent to Vancouver, B. C.

SAFETY GATES NEEDED

People Want Them Along the
Horn Switch.

THE DANGER NOW IS GREAT

There Is More Switching Than Ever, and
the Track Makes Travel Very Dangerous.
A Petition Will Go to Council Within a
Short Time.

There is a movement among residents
of the hill districts which will likely re-
sult in a petition to council asking that
safety gates be placed at crossings on
the Horn switch.

They want gates at the Eighth, West
Market, East Market and Walnut street
crossings, and believe that the number
of narrow escapes from death or
serious injury make ample cause
for action on the part of council.
The grades of all these streets near
the switch are such that a wagon once
started down the hill can only be stopped
with the greatest difficulty before cross-
ing the track. Many times have team-
sters narrowly escaped during the past
few months, and it is from them the de-
mand for gates first came. The switch
is used almost as much as the main
line, and since the yards were
placed on the hill a great deal of
switching is done. No precautions
against accident are ever taken, and it
is no fault of the railroad company that
many accidents have not happened. At
one of the crossings the danger sign re-
quired by state law has been down for
two weeks. A resident of the hill who
has just cause for complaint said today
that the question would be agitated un-
til something was done.

FIRE EXTINGUISHERS

Will Soon Be In Every Passenger Car In
Ohio.

Passenger cars running in Ohio must
be equipped with fire extinguishers. The
law says so, and Railroad Commissioner
Kaylor proposes to carry out the law.
When Mr. Kirkby went out of office,
steps in the direction of this had been
taken, but no device had been definitely
settled upon. Mr. Kaylor proposes to
adopt some extinguisher meeting the
requirements as soon as possible, and the
companies will then be notified to put
them in. The law provides that one car
at least on every train must be provided
with an extinguisher, to be put in place
by April 1, 1897. Owing to the near-
ness of that time, the limit for the law
to become operative will no doubt be
extended.

ON THE FORCE.

James Moffatt May Become a Railroad
Detective.

James Moffatt, who is well known to
almost everyone in the city and who
served the county long as deputy sheriff,
may become a Cleveland and Pittsburgh
detective. Mr. Moffatt has been offered
the place, but has not yet decided
whether he will accept.

The police department of the Cleve-
land and Pittsburgh is organized like
that of a city. There is a chief who
has under his supervision lieutenants
and detectives. The system was
inaugurated several years ago, and has
proved very successful.

THREE WERE CONFIRMED.

Bishop Leonard Preached an Eloquent
Sermon.

St. Stephen's Episcopal church was
crowded last night, the occasion being
the confirmation of a class of three.
Bishop Leonard delivered a scholarly,
eloquent address, his subject being one
which permitted the exercise of those
oratorical powers for which the gentle-
man has long been famed. The music
was of a high order, and the service
throughout was greatly enjoyed.

Bishop Leonard left this morning for
his home in Cleveland.

ALL OVER TOWN.

Scores of Cases of Measles but No More
Fatalities.

The epidemic of measles shows no
signs of abating, and new cases are re-
ported to the health authorities every
day. Doctor Ogden added six to his list
yesterday, and at a late hour this after-
noon had five more. As a rule these
cases are not considered serious by the
physicians, but in several instances
children have recovered when it was be-
lieved they would die. The disease is
seriously affecting attendance at the
public schools.

AT MANLEY'S COURT.

Five Cases Entered Yesterday to Recover
Lucr.

In Squire Manley's court a number of
civil cases have been entered.
James Prosser obtained judgment for
\$2 against Elwood Possey, the latter to

pay all costs. Thomas Starkey has
charged George Wynne with forcible
detention. George Maul has sued J. B.
Rayl to recover \$4.50. It will be heard
tomorrow. The Burford Pottery com-
pany has a claim of \$21.99 against Joseph
Hanton. The hearing is set for Friday.

THINKS HE IS ALL RIGHT.

A Kind Ward For a Well-Known Wheel-
man.

The Pittsburgh Times has this to say of
a young man well known in this city:
"Clint C. Aughenbaugh, whose trans-
fer from the amateur to the professional
class was one of the last falls of Gideon's
ax, is considered the speediest wheel-
man in Western Pennsylvania. While
in the amateur class he accumulated
everything in the way of prizes from
cottons to bread and butter. Now that
he is among the 'pros,' he is expected to
sweep the minor circuits. His record
last year was splendid. He made 45
starts in 14 race meets. He took 33 firsts,
4 seconds and 4 thirds. The total value
of his prizes was \$1,052. He rides an
Andrae, with Palmer tires, at 80 gear.
Aughenbaugh is 21 years old, 5 feet 9 1/2
inches high, and riding weight 160. If
he takes time to go after cash prizes, he
will be one of the early tape crossers in
the interstate professional bicycle circuit
recently formed."

FILED TWO SUITS.

Liverymen Take Their Side of the Vehicle
License to Court.

Attorney J. H. Brookes today filed
two suits against the city of East Liver-
pool and A. V. Gilbert as mayor.

J. D. West, as undertaker, sues to re-
cover \$17.75, and John Rinehart, as
liveryman, asks \$24.75, paid to the city
for vehicle licenses.

The petition says that they recognize
the right of the city to charge a reason-
able license fee, and that the 25 cent
paid to the mayor is a fair and reason-
able cost, but that the amount over and
above is a tax which the city has no
right to assess. The cases, as in the
Robert Hales case, are test suits, and
should the plaintiffs win it means a vic-
tory for all undertakers and liverymen.

MISSED THE TRAIN.

But a Passenger Was Kind Enough to
Throw Off His Baggage.

Tongie Amos and H. Brown were to
go to East Palestine yesterday afternoon,
but they lingered too long by the way-
side and missed the train. The baggage
was placed on the rear platform, but the
men failed to board the train. A pas-
enger saw the plight of the men, and
kindly kicked off the baggage when the
train reached Second street. The grip
was broken open by the fall, and the
effects of Amos were scattered over the
street.

IT'S A DANGEROUS PRACTICE.

This Fast Driving Through the Business
Section.

A number of parties who own fast
roadsters have started the season with
more reckless driving than has been seen
in the city for many a day. Dashing
down Fifth street at a wild pace,
they turn into Market street and the
Diamond regardless of the danger to
pedestrians. Sixth street is also a fa-
vorite speeding ground. The police should
enforce the ordinance. After someone
has been killed it will be too late.

THEY BOUGHT BOXING GLOVES.

And Now One of Them Wears Court Plaster
Over His Eye.

The clerks in several uptown stores
have purchased a set of boxing gloves.
This morning a clerk and the proprietor
had a bout during which time they
clinched, and the affair turned into a
wrestling match. In falling the clerk
struck a desk, and he is now wearing a
court plaster over his eye.

THE EVANGELIST'S MEETINGS.

Services This Morning and This After-
noon.

This is the last day Reverend Naylor
will hold services in the city, and the
meeting tonight ends his work here.
Reverend Gamesfeldter preached at the
Methodist Protestant church this morn-
ing, and Doctor Reager, also of Wells-
ville, was expected this afternoon, but
could not be here. Services were also
conducted this afternoon.

Only a Rumor.

Someone notified Mayor Gilbert by
telephone this afternoon that the body
of a boy had been found floating in the
river. A diligent search failed to locate
the body.

Only a Mistake.

George Morton, John Morton and
Dick Campbell are fishing this afternoon
at Beaver creek. Mr. Morton discovered
after his return home Wednesday that
he had not lost his glasses, as he had not
taken them with him.

MARTIN AFTER MONEY

Suit Was Brought Against
Jesse Kepner.

HE THINKS HE CAN COLLECT

The Full Amount of the Judgment Ob-
tained In Court a Few Months Ago.
Property In Salem and Hanover—Rolling
on an East Liverpool Case.

Lisbon, March 31.—[Special]—Judge
Smith has decided that the suit brought
by J. B. McKinnon against the Pennsyl-
vania company, operating the Cleveland
and Pittsburgh, and John W. Croxall,
should be dismissed so far as Croxall is
concerned. The action was filed a year
ago to compel Croxall to make
good a covenant of warranty to de-
fend a part of lot 42 in
East Liverpool against the claims of the
company. McKinnon purchased the
property from Croxall, and the railroad
has for years kept him out of the posses-
sion of it. Damages to the amount of
\$500 were asked from Croxall.

Suit was commenced in court this
morning by John R. Martin to recover
from Jesse Kepner the \$10,924 judgment
rendered him Jan. 29 by forcing to sale
lots in Salem. The judgment was given
as a result of Martin's suit to recover
the county treasury deficit of three years
ago, and an execution issued on this
property was returned unsatisfied, owing
to some claim held by the First National
Bank of Alliance. Martin's judgment
is alleged to be the first lien, and the
bank is made a defendant to the action.
Vendi expons proceedings have been instituted by Martin
against 28 acres of land which Kepner
has in Hanover. This will also be
forced to sale as soon as approved. It
is claimed that the full amount of the ver-
dict can be recovered.

James Bale, who was convicted in the
court of Mayor Jones, Wellsville, of
obtaining money by false pretense from
A. J. Dawson, was brought to Lisbon
jail yesterday.

Mrs. Mame Tullis, wife of Contractor
Tullis, died suddenly in Salem this
morning. Deceased was formerly
Miss Dunn, of this place, and has been
married but two years.

Charles W. Harris and Lena Rubble
were married by Rev. J. T. Morton. G.
L. Carle and Alice Hannany were
married by Rev. J. P. Anderson. The
parties are all from Salem.

J. R. WARNER,

Our Well-Known Townsman, Will Quit
the Shoe Trade.

Business men of East Liverpool and
citizens in general will learn with re-
gret that J. R. Warner, the well-known
and justly-popular shoe merchant, will
close out his interest in the business in
this city at as early a date as possible.
Rumor has it that he will engage in a
new venture, but not in this immediate
section. The gentleman was inter-
viewed by a NEWS REVIEW representa-
tive this afternoon, and acknowledged
that his retirement from the shoe busi-
ness will soon be an accomplished fact,
as he expects to close out during the
next three months. Referring to his
entering into other business, the gentle-
man smiled a smile that was child-like
and bland, and gently intimated that the
pencil shaver was venturing on forbid-
den ground, and that further informa-
tion might be forthcoming in the not
distant future.

J. R. Warner has made a host of
friends in this section during the past 18
years, and "Jeff," as he is best known
by those who have his close acquaint-
ance, will carry with him the good
wishes of one and all. He has won an
enviable name as a fair and square
dealer. The NEWS REVIEW has found
him a staunch and true friend. He de-
serves success, and we hope that he will
have it in full measure. "Jeff"
bears the reputation of being ex-
tremely fortunate in his enterprises;
so much so that a prominent merchant
was heard to remark the other day:
"If Warner should fall into the Ohio,
he's so confounded lucky that he
wouldn't even get wet."

May his good luck, fortune, or what-
ever it may be, follow him all his days.

Some Were Successful.

The list of the successful candidates
who recently passed the civil service ex-
amination was returned yesterday from
Washington. They are Edward Gould
and Homer Owens, carriers; Charles
Eaton, East End, and Harry Wildblood.
Eight persons took the examination.

No Meeting.

A general impression seems to prevail
that this is the regular meeting night
of Trades council. Such is not the
case and five Wednesdays in this month
caused the trouble.

THE signs of better times are almost

as plentiful as the signs of spring.

Don't fail to vote next Monday. Go

and do the duty you are expected, if

you are a good citizen, to do.

MARCH will have to trot out that lion

in a hurry if it would leave us in the

conventional form of falling mercury

and sloppy weather.

If the wheelmans of this town would

enter politics as they did in Chicago,

they might induce council to appropriate

enough money to allow Commissioner

Finley to keep the streets clean.

UNLESS the governor intervenes the

first legal electrocution in Ohio will

take place at the penitentiary one week

from next Friday. It is done under a

law passed by the last legislature

THE Salem Herald is publishing a

serial editorial on the responsibilities of

the administration. Of course the

valuable suggestions of the Herald are

thankfully received by the gentlemen

upon whom rests the weight of this

great nation.

MR BRICE takes the trouble to an-

nounce that he is out of politics, and

simply takes up his residence in Ohio

because it is a nice state and he can

look after his railroads so much better

than if he resided in New York. Of course

everyone believes Mr. Brice. He has

been a senator, and no one for a moment

doubts his veracity.

THE distressing conditions at present

existing in the flood stricken districts

along the Mississippi river can be traced

directly to the greed of man and his

inability to keep a legacy when it fell

into his hands. If the people of those

states drained by the Father of Waters

and his tributaries had allowed more of

the forests to remain intact, there would

be no great floods, and thousands of

people already poor in pocket would

never know the horrors they experience

today.

DANGEROUS DAYS OF DELAY.

Whether congress will make the tariff

bill operative the moment it becomes a

law, remains to be seen, but there is

ample room for believing that next to

the measure itself this is the most im-

portant move that could be made. The

thousands of dollars worth of manu-

factured articles brought to the country

every day make up sufficient proof of

the necessity for some such provision.

The markets are even now being gorged

with foreign wares, and, if the import-

ers are allowed a few months, they will

work incalculable injury. The argu-

ment that haste in enforcing laws of

this character is unseemly, amounts to

nothing, and can be taken for what it

really is--a ruse of the importers to gain

time while they import additional stocks

under the old duty.

WILL NOT DISBAND.

Western Traffic Association to Have

Nothing to Do With Rates.

CHICAGO, March 31.—The passenger

representatives of the various western

roads met at the office of the Western

Passenger association for the purpose

of considering the future of that

organization. The meeting lasted the

greater part of the day and at its close

it was decided to recommend to the

executive officers that the Western

Passenger association be continued in

existence, but that it shall hereafter

have nothing to do with rates or the

maintenance of rates. It was recom-

mended that it be a bureau of informa-

tion and statistics only, but that the

bureau which have the handling of the

clergy tickets and of the mileage

transportation shall be continued in

force. These bureaus have nothing

whatever to do with rates, and it is not

thought that they come under the scope

of the supreme court decision.

The services of nearly all of the

clerks in the association will be re-

tained, as there will be plenty of work

for them in looking after the mileage

and clergy business. The only thing

that has been taken from the work of

the association, in fact, is that concern-

ing rates. The roads have practically

agreed that for the time being they

will do their utmost to avoid any de-

teriorization in rates.

The western roads have come to the

conclusion that they will be compelled

to abandon their emigrant clearings

house in New York. This was run on

a pooling arrangement pure and sim-

ple, and the supreme court decision

does not leave it a leg to stand upon.

Illinois Banks Robbed.

ONEIDA, Ills., March 31.—The State

bank here has been robbed. Entrance

was made through the front door. The

safe was cracked with nitroglycerin.

The amount taken is between \$5,000

and \$7,000. Besides the Oneida failed

the bank at Beggsville was robbed of

\$400. Banks at Kewanee and Altoona

were also visited, but no money ob-

tained. Officials have arrested four

men presumably from Chicago and

have them in jail.

Bought a Half Interest.

DULUTH, March 31.—A half interest

in the great Mahoning iron mine on

the western Mesaba has been bought

by the Cambria Iron company of Penn-

sylvania. The price is not known here,

but it is not far from \$400,000. The

mine will easily produce from 500,000

to 600,000 tons of ore yearly. The sale

leaves but one of the great steel mak-

ing firms of Pennsylvania and Ohio

without a Mesaba mine.

An Ex-Congressman Dead.

COLUMBUS, March 31.—Hon. George

L. Converse, ex-member of congress,

has died here. He was ill seven months,

was in his 70th year and died in the

county of his birth. He served in the

house and senate of the Ohio legisla-

ture from 1860 to 1865 and again in the

house in 1873, when he was speaker. He

was in congress three terms and was a

Randall protective tariff Democrat.

Two Killed and Four Injured.

CHICAGO, March 31.—Two men have

been killed and four seriously injured

by an explosion in the northwest water

tunnel at the foot of Oak street. The

dead are Owen O'Malley and Peter Gal-

lagher and the injured are Thomas

Gallagher, Dennis Hayes, Patrick Con-

way and George Blank.

To Permit Pooling by Railroads.

WASHINGTON, March 31.—Senator

Foraker has introduced a bill in the

senate to amend the interstate com-

merce act so as permit pooling by rail-

roads.

To Aid in Recovering Crosby's Body.

WASHINGTON, March 31.—Senator

Dupuy de Lome, the Spanish minister

here, has cabled to Acting Captain

General Ahumada at Havana a request

that he do all in his power to aid in the

recovery of the body of the unfortunate

newspaper correspondent, Crosby, who

was killed at Arroyo Blanco, and to

have the remains shipped to the United

States.

Captain of the Oakes Arrested.

NEW YORK, March 31.—Captain E.

W. Reed of the ship T. F. Oakes has

been arrested upon a warrant issued by

the United States court. The Oakes is

the ship upon which, during its last

voyage there was much suffering and

several deaths, resulting, as alleged,

from insufficient and improper food.

The Discussion on the Dingley

Bill About Over.

MANY POLITICAL SPEECHES MADE.

An Attempt Made to Extend the Debate

but It Was Lost—Hides on the Free

List Causes Some Debate—Will Vote

on the Bill Today.

WASHINGTON, March 31.—Party feel-

ing ran high during the last day of the

tariff debate in the house. Political

speeches were wedged in at every op-

portunity and there was constant ma-

neuversing for political advantage.

The opposition directed their efforts as

far as possible toward stirring up dis-

sensions on the Republican side, but

they succeeded only in exposing a sin-

gle instance of revolt. That was the

subject of free hides. The Democrats

pressed the question of a duty on hides

for the benefit of the farmer with such

vigor that Mr. Hepburn (Rep., Ia.) was

drawn into the debate, and made a

strong plea for dutiable hides. He de-

manded that the house be given an op-

portunity to vote on this question, and

declared that every western Republi-

can was in favor of it. Mr. Cannon

(Ils.) also gave a qualified endorsement

to this demand. The Republican lead-

ers defended their bill with vigor.

The ways and means committee held

the floor with their amendments for six

hours. About 35 were offered and

adopted. Among them was one admit-

ting free of duty, "books, scientific

apparatus, charts, maps, etc., for

scientific and educational purposes.

After that five more pages of the bill

were read, making 20 pages in all of the

162 pages of the bill.

The bill was open for amendment un-

til 1 o'clock today, an attempt to ex-

tend the debate having failed, after

which an hour on a side will be allowed

to close. The voting will begin at 5

o'clock. The Democrats displayed a

good deal of anxiety to get in an

amendment to strike out the differ-

ential on sugar, but they probably will

be frustrated in this. The only motion

they may be able to secure a vote on is

one to recommit with instructions.

This motion has been prepared in the

shape of a resolution, and is the Doc-

tery amendment to suspend the duty on

articles whose prices are controlled by

transit or combinations. Even this

motion may be held to be out of order

under the special order. There is some

talk of a number of Republican votes

being cast against the bill, but after in-

vestigation it seems probable that those

who may be dissatisfied with particular

provisions of the bill will line up on

the final vote, and there will be no

break in the Republican ranks.

Among the amendments adopted

were the following:

DANGEROUS DAYS OF DELAY.

Whether congress will make the tariff bill operative the moment it becomes a law, remains to be seen, but there is ample room for believing that next to the measure itself this is the most important move that could be made. The thousands of dollars worth of manufactured articles brought to the country every day make up sufficient proof of the necessity for some such provision. The markets are even now being gorged with foreign wares, and if the importers are allowed a few months, they will work incalculable injury. The argument that haste in enforcing laws of this character is unseemly, amounts to nothing, and can be taken for what it

really is—a ruse of the importers to gain time while they import additional stocks under the old duty.

WILL NOT DISBAND.

Western Traffic Association to Move Nothing to Do With Rates.

CHICAGO, March 31.—The passenger representatives of the various western roads met at the office of the Western Passenger association for the purpose of considering the future of that organization. The meeting lasted the greater part of the day and at its close it was decided to recommend to the executive officers that the Western Passenger association be continued in existence, but that it shall hereafter have nothing to do with rates or the maintenance of rates. It was recommended that it be a bureau of information and statistics only, but that the bureaus which have the handling of the clerical tickets and the mileage transportation shall be continued in force. Those bureaus have nothing whatever to do with rates, and it is not thought that they come under the scope of the supreme court decision.

The services of nearly all of the clerks in the association will be retained, as there will be plenty of work for them in looking after the mileage and clerical business. The only thing that has been taken from the work of the association, in fact, is that concerning rates. The roads have practically agreed that for the time being they will do their utmost to avoid any demoralization in rates.

The western roads have come to the conclusion that they will be compelled to abandon their emigrant clearings house in New York. This was run on a pooling arrangement pure and simple, and the supreme court decision does not leave it a leg to stand upon.

Illinois Banks Robbed.

ONEIDA, Ills., March 31.—The State bank here has been robbed. Entrance was made through the front door. The safe was cracked with nitroglycerin. The amount taken is between \$3,000 and \$5,000. Besides the Oneida affair the bank at Besseville was robbed of \$400. Banks at Kewanee and Altona were also visited, but no money obtained. Officials have arrested four men presumably from Chicago and have them in jail.

Bought a Half Interest.

DULUTH, March 31.—A half interest in the great Mahoning iron mine on the western Mesaba has been bought by the Cambria Iron company of Pennsylvania. The price is not known here, but it is not far from \$400,000. The mine will easily produce from 500,000 to 600,000 tons of ore yearly. The sale leaves but one of the great steel making firms of Pennsylvania and Ohio without a Mesaba mine.

An Ex-Congressman Dead.

COLUMBUS, March 31.—Hon. George L. Converse, ex-member of congress, has died here. He was 71 years of age, was in his 70th year and died in the county of his birth. He served in the house and senate of the Ohio legislature from 1860 to 1865 and again in the house in 1873, when he was speaker. He was in congress three terms and was a Randall protective tariff Democrat.

Two Killed and Four Injured.

CHICAGO, March 31.—Two men have been killed and four seriously injured by an explosion in the northwest water canal at the foot of Oak street. The dead are Owen O'Malley and Peter Gallagher and the injured are Thomas Gallagher, Dennis Hayes, Patrick Conway and George Blank.

To Permit Pooling by Railroads.

WASHINGTON, March 31.—Senator Foraker has introduced a bill in the senate to amend the interstate commerce act so as permit pooling by railroads.

To Aid In Recovering Crosby's Body.

WASHINGTON, March 31.—Senator Dupuy de Lome, the Spanish minister here, has cabled to Acting Captain General Alameda at Havana a request that he do all in his power to aid in the recovery of the body of the unfortunate newspaper correspondent, Crosby, who was killed at Arroyo Blanco, and to have the remains shipped to the United States.

Murdered by a Tramp.

COLUMBUS, March 31.—The body of Mrs. John W. Miller, a farmer's wife, at Blacklick, this county, was found, she having been murdered Monday by a tramp employe, in the temporary absence of her husband. The tramp has gone.

READY FOR A VOTE.

The Discussion on the Dingley Bill About Over.

MANY POLITICAL SPEECHES MADE.

An Attempt Made to Extend the Debate but It Was Lost—Hides on the Free List Causes Some Debate—Will Vote on the Bill Today.

WASHINGTON, March 31.—Party feeling ran high during the last day of the tariff debate in the house. Political speeches were wedged in at every opportunity and there was constant maneuvering for political advantage. The opposition directed their efforts as far as possible toward stirring up dissensions on the Republican side, but they succeeded only in exposing a single instance of revolt. That was on the subject of free hides. The Democrats pressed the question of a duty on hides for the benefit of the farmer with such vigor that Mr. Hepburn (Rep., Ia.) was drawn into the debate, and made a strong plea for dutiable hides. He demanded that the house be given an opportunity to vote on this question, and declared that every western Republican was in favor of it. Mr. Cannon (Ills.) also gave a qualified endorsement to this demand. The Republican leaders defended their bill with vigor.

The ways and means committee held the floor with their amendments for six hours. About 35 were offered and adopted. Among them was one admitting, free of duty, "books, scientific apparatus, charts, maps, etc.," for scientific and educational purposes. After that five more pages of the bill were read, making 20 pages in all of the 162 pages of the bill.

The bill was open for amendment until 1 o'clock today, an attempt to extend the debate having failed, after which an hour on a side will be allowed to close. The voting will begin at 5 o'clock. The Democrats displayed a good deal of anxiety to get in an amendment to strike out the differential on sugar, but they probably will be frustrated in this. The only motion they may be able to secure a vote on is one to recommit with instructions.

This motion has been prepared for the shape of a resolution, and is the Dockery amendment to suspend the duty on articles whose prices are controlled by trusts or combinations. Even this motion may be held to be out of order under the special order. There is some talk of a number of Republican votes being cast against the bill, but after investigation it seems probable that those who may be dissatisfied with particular provisions of the bill will line up on the final vote, and there will be no break in the Republican ranks.

Among the amendments adopted were the following:

Paper not specially provided for, 25 per cent ad valorem; hats, bonnets, etc., unbleached, 15 per cent, bleached, 25 per cent; making the duty on brushes uniform at 40 per cent; safety shoes, 35 per cent; qualifying the duty on crude tartar dutiable at 1 cent per pound so as to provide that such tartar must not contain more than 50 per cent of bitartrate of potash; striking out paragraph 382 fixing duties on Oriental, Berlin and similar rugs (Mr. Dingley explained that the effect of this amendment was to restore the duties of the act of 1890 on carpets); to change the phraseology of the embroidered glove schedule to meet a recent decision of the board of general appraisers. Another amendment provided that no gloves larger than size 6 should be classed as children's gloves.

Mr. Cannon (Rep., Ills.) prefaced his remarks with the declaration that he was for the pending bill. He was not pleased with all its features, but he never had been pleased with any revenue bill. He appreciated that there must be a spirit of give and take, and he was frank to say he thought there could well be a duty on hides, as the impression was deeply grounded in the west that a duty on hides would raise the price on cattle \$1 a head.

Mr. Slayden (Dem., Tex.) expressed gratification that the Republican majority had been awakened in spots. He proceeded to argue that a duty on hides would be of practical benefit to the cattle raisers of the plains of Texas, Kansas and the Dakotas.

Mr. Bell (Pop., Col.) warned the Republicans that if they passed this bill, containing high duties, without imposing at least a revenue duty on hides, distinctly a precedent would be set, and he would regret it. Why should the wool men of a few states be so generously dealt with and the cattle raiser denied anything?

Mr. Dingley defended the action of the committee, saying that we could tan hides with our cheap material for the foreign market. Weighing the balance of advantages, the committee decided against a duty on hides.

On the other side, Mr. Cannon said, was adjusted to free hides, and it was decided that a duty on hides would not be of advantage to the farmer, and would be a distinct disadvantage to our export trade.

Mr. Hepburn (Rep., Ia.) then came forward with a vehement speech in favor of a duty on hides. Mr. Hepburn declared that the wool interests dwarfed in contrast with the vast cattle interests of the country. Iowa was more interested in hides than wool. She marketed annually \$3,000,000 worth of hides and not 10 per cent of that amount of wool. He demanded that the ways and means committee allow the sense of the house to be taken on this question, and affirmed, with great positiveness, that every Republican from the west favored a duty on hides. "We insist," he shouted, "that the tanning and leather industries of New York, Pennsylvania and New England should not be allowed to stifle the demands of the west." (Democratic applause.)

Mr. Dockery contributed to the controversy over hides the statement that "you were notified by a member of the senate, then a representative on this floor, (Mr. Lodge), that if hides were not left on the free list Massachusetts would defeat the bill."

Mr. Norton (Dem., O.) made a vicious assault on the majority. Instead of denouncing Mr. Cleveland on every occasion, he said, the other side ought to be down on their knees at the feet of his "perspiring obesity and ponderous ponderosity," thanking him for the opportunity he had given them to again "rob the people."

An amendment rating steel strings for musical instruments at 45 per cent, one putting bolting cloths for milling purposes at 45 per cent (free under McKinley bill), and reducing the duty on cocoa fiber and rattan matting from 8 to 4 cents per square yard and on mats of a similar material from 8 to 4 cents were adopted.

Mr. Perkins (Rep., Ia.) made a humorous speech of five minutes, deriding the Democracy and its panaceas for the people's ills. Magnesia, not medicinal, carbonate of potash and sheep dip were piled on the free list.

Mr. Henderson (La.) took occasion at this point to deny that this bill was framed in the interest of the east. He pointed out that the west held a majority on the committee, and were entirely competent to care for the interests to which they were committed.

Mr. Cowherd (Dem., Mo.) declared that the tariff on Mexican cattle was a blow at the farmers and the wool schedulers as well as the cattle men.

In reply Mr. Dolliver had read a letter from Norman Gibbs of Mt. Vernon, Mo., president of the Short Horn association, asking a duty of \$10 a head on Mexican cattle in the name of the cattlemen of that section.

Mr. Smith (Dem., Ariz.) talked on the cattle schedule, asserting that the rates amounted to 125 per cent ad valorem so far as they concerned his territory.

In rebuttal of Mr. Dolliver's letter, Mr. Wheeler (Dem., Ala.) read a letter from Hon. Norman J. Coleman of St. Louis, the first secretary of agriculture, asking for an ad valorem duty on cattle that Mexican stock might be brought into this country for feeding.

Mr. Brucker (Dem., Mich.) denounced the duty of \$3 on lumber as robbery. The lumber barons were permitted to go into Canada and have their lumber sawed by the cheap labor there. It was free trade in labor and protection for the manufacturer.

The amendment pending was adopted; also an amendment increasing the rates on horses and mules to those of the act of 1890.

Mr. Richardson asked if the chairmen of the ways and means committee would not be kind enough to allow the minority to "offer just one little amendment."

"I presume it is to strike out the enacting clause," said Mr. Dingley.

"No," replied Mr. Richardson, "it is to strike out the differential on sugar."

"We will consider any amendment," observed Mr. Dingley, his response cutting smile to the Democratic side.

Mr. McMillin followed this up with a request that the committee now proceed to the consideration of the sugar schedule.

Several Republicans objected. "We will get to that schedule," said Mr. Hopkins, "if you will allow us to proceed."

All right," replied Mr. McMillin. "We will let the reading proceed and see how sincere you are."

The clerk then resumed the reading of the bill where he stopped on Saturday.

Mr. Lentz (Dem., O.) was the first to interrupt the reading of the bill. He presented a number of protests from bituminous coal miners against the restoration of 75 cents a ton on coal. He declared that the restoration was in the interest of the anthracite coal pool of the east.

Mr. Grosvenor (Rep., O.) in reply said Mr. Lentz' remarks had demonstrated his ignorance. He said the east was in favor of a lower duty on coal. The introduction of coal on the Atlantic seaboard did effect the coal market in Ohio, and his district mined one-third of the coal of his state. Canada now imposed a duty of 60 cents per ton on our coal. Our duty was now 40 cents.

The committee then rose. An attempt was then made to extend the debate an hour to-day, but the Republicans refused to agree to this unless the Democrats would agree to vote on the amendments in gross. But the Democrats declined to accede to this condition and all negotiations fell through.

Mr. Wheeler tried to secure consent for a night session, but Mr. Dingley said it would be impossible to secure a quorum.

ASKING FOR INFORMATION.

Resolution in the Senate Regarding Gomez' Letter to the President.

WASHINGTON, March 31.—Senator Allen (Pop., Neb.) made a long speech in the senate on the unconstitutionality of the tariff taxes beyond those requisite for revenue. Mr. Allen severely criticized the trusts and combinations which, he declared, reaped the main advantage of tariff taxes. The senator's remarks were in the nature of a legal argument, showing the constitutional limitations on the taxing power of congress.

At the conclusion of Mr. Allen's remarks the resolution was referred to the finance committee.

The house amendments to the senate joint resolution appropriating \$250,000 for the saving of life and property along the Mississippi were agreed to and the resolution now goes to the president.

The Cuban question was brought forward again by Mr. Morgan (Ala.), who presented a resolution requesting the president to inform the senate whether letters had been received by the present and former chief executive from General Maximo Gomez, commander of the revolutionary forces in Cuba. The resolution recited at length the letters said to have been forwarded to President McKinley and his predecessor from Gomez and published in the newspapers.

The resolution concluded with a request that the president shall also inform the senate whether the Spanish authorities in Cuba have refused to allow cipher dispatches to be transmitted between the United States consul at Sagua la Grande and the United States consul general at Havana.

The senate then went into executive session on the arbitration treaty.

Shipwrecked Crew Rescued.

PENSACOLA, Fla., March 31.—The British steamship "Janet," which has arrived here from Port Elizabeth, had on board the master and crew of eight men of the shipwrecked schooner Margaret, which sailed from Mobile on the 11th inst. with lumber for Cienfuegos and which was wrecked off Cape San Antonio, Cuba. The crew was rescued on the 27th inst. The Spanish forces took the schooner for a filibuster and her master was interviewed by Spanish authorities after he had gone on board the Janet.

FIGHTING IN CRETE.

The Cretans Dislodge the Turkish Garrison.

THEY THEN SEIZE A VESSEL.

A French Warship Dispatched to Render Assistance—Greece Now Prepared For War—Powers Want the Sultan to Withdraw Troops From Frontier.

CANEA, March 31.—The Greeks have attacked Fort Izzedin, which dominates Suda Bay. The foreign ironclads bombarded the attacking force, which had 12 cannon and one mitrailleuse. Finally detachments of the foreign troops occupied the fortress.

There was sharp fighting at Spinalonga. The Cretans succeeded in dislodging the Turks, and seized a vessel which was landing ammunition to them. Several shots have been fired at the foreign occupying forces at Patsunaria. The French commander has obtained reinforcements to replace the Turkish outposts, which are said to be absolutely unreliable.

The fighting at Spinalonga lasted 45 hours. The Turkish garrison met with a heavy loss. A French warship has been dispatched to render them such assistance as may now be practicable.

As to the Cretan situation, proper, it is understood that the admirals in command of the foreign fleets in Crete waters are of the opinion that now that Greece has virtually completed her war preparations on the frontier of Thessaly, a blockade of the principal Greek ports would be useless, thus bearing out the forecasts previously made in these dispatches that the refusal of Great Britain to take active part in the blockade of Greece might lead to the collapse of that scheme to prevent an outbreak of hostilities. Under these circumstances all the efforts of the ambassadors of the powers here are now being directed toward prevailing upon the Turkish government to advise the sultan to withdraw the Turkish troops from Crete as another step to Greece and as another attempt to prevent war, and in addition, the ambassadors are endeavoring to prevail upon Greece and Turkey to agree to the establishment of a neutral zone between the opposing Turks and Greeks on the two frontiers.

The ambassadors have made strong representations to the porte in favor of permitting the immediate departure of those of the Mussulmans in Crete who have expressed a desire to emigrate. This will probably be agreeable, but as to the withdrawal of the Turkish troops the sultan has not yet shown any disposition to submit to that demand.

The Austrian government, upon the representations of the porte, has prohibited the exportation from the east of 7,000,000 cartridges which were in course of shipment to Greece. The representatives of Greece have protested against this action upon the part of the Austrian government, claiming it is illegal and arbitrary, as no state of war exists. It is not likely that the protest will have any effect. The work of preparing for the defense of Salonica is now said to have been completed and all danger of an attack upon this Turkish base of supplies is believed to have passed.

In Readiness to Sail For Crete.

VALETTA, Island of Malta, March 31.—It is reported here that 600 men of the Welsh fusiliers have been ordered to hold themselves in readiness for embarkation to the island of Crete, the admirals commanding the fleets of the powers in those waters having asked for reinforcements of troops to prevent any further advance of the insurgents upon the Turkish positions and to occupy in force for that purpose several strategic positions.

THE FIGHT STILL ON.

No Choice Yet Reached In the Kentucky Senatorship.

FRANKFORT, Ky., March 31.—The continuous balloting for senator resulting in no further loss of strength by Dr. Hunter is evidently very pleasing to his friends, who had been threatened with a stampede from their man whenever continuous balloting should begin. They claim that it means Dr. Hunter's ultimate victory in that nothing can shake the 66 who are standing solidly for him, and that the gold Democrats, who are determined to have an election, will sooner or later come to him and more than supply the needed five votes. The anti-Hunter people claim that the trial demonstrates that the nominee cannot get the necessary votes, cannot be elected, and, therefore, should withdraw or be withdrawn in favor of some other Republican.

There are hundreds of schemes hatching and some 15 or 20 candidates on the ground ready to inherit the mantle of the nominee whenever it is possible to do so. The indication is that Dr. Hunter has no idea of withdrawing; that no attempt to get him to withdraw is being made, and that the final fight will be a close finish between Hunter and Blackburn or Hunter and Bradley.

The latest scheme is a fusion on W. C. P. Breckinridge by the Republicans and gold Democrats, and there are dozen of men here who really believe that Breckinridge may be elected.

Appeal of Joint Traffic Cases.

WASHINGTON, March 31.—A transcript of the record in the case of the United States vs. the Joint Traffic association has been received and filed in the supreme court of the United States. The case came to the supreme court on an appeal from the decision of the circuit court of appeals for the second circuit, where the decision was against the United States. A motion to advance the case on the docket will be made by the government to-morrow.

The President's Nominations.

WASHINGTON, March 31.—The president sent the following nominations to the senate: Frank W. Palmer of Illinois, to be public printer; Alexander M. Thackara of Pennsylvania, to be consul of the United States at Havre, France; Assistant Surgeon James H. Oakley of Illinois, to be a passed assistant surgeon in the marine hospital service.

DEATH IN A TORNADO.

Many Persons Killed and In-
jured In Oklahoma.

TOWN OF CHANDLER DESTROYED.

The Dead and Injured Will Reach One
Hundred and Fifty—Physicians All
Killed but One—Assistance From Guthrie
and Other Cities.

GUTHRIE, O. T., March 31.—A terrific
tornado, followed by hail and flood,
swept through the town of Chandler, 40
miles east of here, completely devastat-
ing the town. Three-fourths of the
residences and business houses of the
place were totally wrecked or badly
damaged, scores of people were injured
and many were killed.

Darkness at once came on, and the
work of rescue is carried on under
greatest difficulties.

The telephone office was destroyed
and a telephone was connected with
the wire two miles away and a message
was sent here for assistance. Up to
that time Mr. and Mrs. Woodman, Mrs.
Henry Mitchell, Mrs. Thomas Smith,
Attorney John Dawson and two un-
known persons had been found dead
and fully 150 people were known to be
badly injured.

Mrs. Emory Foster and baby are
thought to be fatally hurt.

Chandler is a town of 1,500 people.
It is built on a hill in thick timber and
the mass of torn trees and wrecked
houses makes it impossible to reach the
injured in the dark. On every side
can be heard groans and cries for help.

A large number of physicians and
other citizens have left here for the
scene with surgical instruments, drugs
and other supplies.

A later message states that a large
number of people known to have been
in business buildings are missing and it
is feared they are under the ruins.

Twenty-one dead bodies have been
taken from the ruins at Chandler.
Seventy-five to a hundred persons are
badly injured and a dozen or more of
these are reported dying.

In addition to those dead, dying and
injured, it is believed that there are a
score or more of dead buried beneath the
wrecked buildings. Several of the
wrecked buildings have taken fire and
the debris is burning fiercely. Many
of the injured have been burned to
death while pinned fast under the
debris.

In one building, it is reported, five
injured people were burned to death,
and at another place the incinerated
bodies of three unknown children have
been taken out.

All the physicians of the town save
one met death in the storm. Nearly all
the physicians of Guthrie have gone to
the scene of disaster.

KANSAS CITY, March 31.—Reports re-
ceived here indicate that the cyclone
which destroyed the town of Chandler,
O. T., also passed across the state of
Kansas, though in less destructive
form.

THREE PERSONS SUFFOCATED.

A New York Dwelling Partly Destroyed
by Fire.

NEW YORK, March 31.—Three per-
sons, two women and a baby, were
smothered to death by smoke in the
double brown stone, five-story dwelling
house, 61 West One Hundred and Fifth
street, which was partially destroyed by
a fire that originated in a dumb waiter
in the basement of the building, spread
to an air shaft and from there up
through the house.

The dead are: Mrs. Elizabeth French,
28 years old; her 6-month-old child
and Miss Ellen Morrissey of Albany.

Ten families lived in the house, but
there were no men on the premises
when the fire broke out. All of the
women and children on the first four
floors got out of the burning building.
The three persons who lost their lives
were the only occupants of the fifth
floor when the fire broke out.

TWO VESSELS LOST.

It Is Believed They Went Down With
All Aboard.

SAN FRANCISCO, March 31.—Lloyds'
agent here received word that the fine
four-masted British ship Lord Dufferin
and the British bark Benkholve are
missing. All hope for the Lord Dufferin
is abandoned. There is still some hope
for the Benkholve, but very little. The
combined crews of the ships numbered
67 men, all of whom are supposed to
have perished.

Both vessels were in the vicinity of
Montevideo on the same dates, and one
of the theories advanced is that the
ships were in collision and went down
with all on board.

Refused to Liberate Ramsay.

LIMA, Peru, March 31.—The issued
raised between Peru and the United
States with respect to the imprisonment
of Ramsay, the American sailor, is be-
coming a serious matter. The Peruvian
government refuses to accede to the de-
mand of the United States minister,
Mr. McKennie, to set Ramsay immedi-
ately at liberty.

Fighting in the Philippine Islands.

MADRID, March 31.—An official dis-
patch from Manila, capital of the
Philippine islands, announces that in
an engagement between Spanish troops
and insurgent forces 30 insurgents were
killed and 1,097 surrendered. Three
thousand families from the insurgent
camp have reached Manila.

To Form Another Pool.

CLEVELAND, March 31.—The old range
ore men, representing all the Bessemer
mines, except those on the Mesaba
range, met to form a pool to supplant
the association which recently went to
pieces. They discussed details, but did
not take any definite action. Another
meeting will be held today.

To buy where you can buy the cheapest: Another
proof of wisdom is to buy the best your pocketbook will af-
ford. Reliable merchandise wears the longest, and is in
every way more satisfactory than flimsy makeshifts. This
store stands ready to prove that what you buy here will be
bought right, both in quality and price. If through any
mistake it is not right, then we'll make it right. Your pat-
ronage is valuable to us.

Ready to Wear. New Dress Goods.

This refers to sundry lots
of handsome skirts, all made
by artists, fit finish and ma-
terials first-class, and all the
dress making worry saved.

There are plenty of cheap skirts, but
we think there are few, if any, as good
values as the one we offer at \$1.98, full
width, good fit, made from figured mo-
hair, large patterns, all lengths and
waist sizes.

Our \$5 offerings include checks, plain
black mohairs, brown, and green novel-
ties, all cheaper than you could possibly
buy the materials and have them made.
Better skirts in broad silks and satins
at \$8, \$9.50, \$10 and \$12.50.

Muslin Underwear

Just received. You can
see a few samples of it in our
Sixth street window.

Corset covers, cambric, embroidery
trimmed, well made, good fitting, all
sizes, 25c. Other corset covers at 35c,
40c, 50c, 60c, 75c. Night robes excel-
lent values, at 50c, 75c, \$1, and up to \$2.

Drawers 25c, 50c and 75c. Our white
skirts are priced from 50c to \$4 each.
And the wonder is they can be made to
sell so cheaply, quality, trimming and
work considered. If interested in any-
thing in the above line, you can't do
better than buy from us.

New lace, in oriental, net top, heavy
edge, for collar and sleeves, 30c, 40c and
50c per yard.

New ruchings in cream, black, buff,
pink, blue, 25c a yard.

LOCAL BREVITIES.

Tomorrow is moving day.

A number of shantyboat owners are
repairing their crafts.

The jiggermen at the Dresden are
working double time this week.

The Daughters of America last even-
ing held a very pleasant social in their
rooms.

Mrs. Annie Martin and family, of
Toronto, will move to this city this
week.

Manager Swaney and Assistant W. H.
Kelly inspected the telephones in Sa-
lineville yesterday.

At a special meeting of the Phoenix
club held last evening it was decided to
refurnish the rooms.

A letter received yesterday from
Kokomo, Ind., states that the new pot-
tery will be finished in May.

An effort will be made by the police
to put a quietus on bicycle scorching
before it gets thoroughly started.

The trolley wire of the street car line
broke at East End yesterday afternoon,
and delayed travel several hours.

The American Fishing club have com-
menced their preparations to go camp-
ing. They have not yet chosen a loca-
tion.

A number of local wheelmen are mak-
ing preparations for a trip to Atlantic
City as soon as the roads are in good
shape.

Owing to increased orders, it has be-
come necessary for the Sebring and
Union potteries to work a number of
their hands at night.

Tomorrow is All Fool's day, and the
small boy began to celebrate this after-
noon. Pranks without number were
the result of his ingenuity.

All the hotels are doing a thriving
business, and travelers say that business
is better in East Liverpool than in the
majority of towns on the river.

While there has been no building
boom in the city a number of houses are
in course of erection, and others will
follow before the season closes.

The Hot Spur will take a barge now
moored to the bridge to Sistersville this
week. The barge has been there for
time, and is loaded with drilling tools.

The funeral of the little son of Mr.
and Mrs. William S. Arbutnot took
place this afternoon, Doctor Lee officiat-
ing. Interment was made in Riverview.

Farmers say that the wheat crop will
not be what it was last year, but when
all conditions of the season are con-
sidered it is thought to be in good shape.

The round table of school superin-
tendents of eastern Ohio and western
Pennsylvania will meet in Warren,
April 10. A fine program is being ar-
ranged.

Work in the potteries goes steadily on.
Orders are abundant enough to keep the
plants going full time. They are the
right kind of orders according to an
authority.

A number of people standing on the
wharf yesterday thought the buildings
at Rock Spring were on fire. Investiga-
tion proved that a lot of brush was be-
ing burned.

The local dispenser of ancient history
last evening discovered that Milwaukee
wanted George Carey. That was pub-
lished in the News Review when it was
news several days ago.

Elija J. Anderson has commenced a
forcible detention suit against William E.
Morrow. The property in question is the
Anderson house, and the case will be
heard Friday morning.

The steamer Hudson, which passed
this port yesterday, put off 300 bails of
straw for a local pottery. This is the
largest order of straw that has been re-
ceived here for some time.

William Bott last night entertained a
small party at his observatory in West
End. Mr. Bott has recently had his
telescope improved, and the observations
last night were highly satisfactory.

There is more than the usual amount
of petty thieving in the city at present,
and people in the West End, particularly,
are suffering not a little. Several cases
have been reported from that part of the
city within the last few weeks.

"If we are ever to have a big town
here with something more than the
crockery industry to depend upon we
must get up and dust," said a merchant
to the News Review. "The work of in-
ducing concerns to locate here must not
be left to a few, but all must join and
join heartily."

The report that another packet line
would soon be doing business between
Pittsburg and Cincinnati is assuming
something more than the form of rumor.
It is stated that plans for boats have
already been drawn, and the Pittsburg
men behind the project are making
preparations for a move.

The Floating Bethel, a boat on which
live a number of evangelists, has been
towed from Bellaire to Pittsburg. It
will be remembered that the party
started from Pittsburg with the inten-
tion of floating down the river to New
Orleans. They remained several months
in this place two years ago.

DEATH IN A TORNADO.

Many Persons Killed and In-
jured In Oklahoma.

TOWN OF CHANDLER DESTROYED.

The Dead and Injured Will Reach One
Hundred and Fifty — Physicians All
Killed but One—Assistance From Guthrie
and Other Cities.

GUTHRIE, O. T., March 31.—A terrific
tornado, followed by hail and flood,
swept through the town of Chandler, 40
miles east of here, completely devastat-
ing the town. Three-fourths of the
residences and business houses of the
place were totally wrecked or badly
damaged, scores of people were injured
and many were killed.

Darkness at once came on, and the
work of rescue is carried on under
greatest difficulties.

The telephone office was destroyed
and a telephone was connected with
the wire two miles away and a message
was sent here for assistance. Up to
that time Mr. and Mrs. Woodman, Mrs.
Henry Mitchell, Mrs. Thomas Smith,
Attorney John Dawson and two un-
known persons had been found dead
and fully 150 people were known to be
badly injured.

Mrs. Emery Foster and baby are
thought to be fatally hurt.

Chandler is a town of 1,500 people.
It is built on a hill in thick timber and
the mass of torn trees and wrecked
houses makes it impossible to reach the
injured in the dark. On every side
can be heard groans and cries for help.

A large number of physicians and
other citizens have left here for the
scene with surgical instruments, drugs
and other supplies.

A later message states that a large
number of people known to have been
in business buildings are missing and it
is feared they are under the ruins.

Twenty-one dead bodies have been
taken from the ruins at Chandler.
Seventy-five to a hundred persons are
badly injured and a dozen or more of
these are reported dying.

In addition to those dead, dying and
injured, it is believed that there are a
score or more of dead buried beneath
the wrecked buildings. Several of the
wrecked buildings have taken fire and
the debris is burning fiercely. Many
of the injured have been burned to
death while pinned fast under the
debris.

In one building, it is reported, five
injured people were burned to death,
and at another place the incinerated
bodies of three unknown children have
been taken out.

All the physicians of the town save
one met death in the storm. Nearly all
the physicians of Guthrie have gone to
the scene of disaster.

KANSAS CITY, March 31.—Reports re-
ceived here indicate that the cyclone
which destroyed the town of Chandler,
O. T., also passed across the state of
Kansas, though in less destructive
form.

THREE PERSONS SUFFOCATED.
A New York Dwelling Partly Destroyed
by Fire.

NEW YORK, March 31.—Three per-
sons, two women and a baby, were
smothered to death by smoke in the
double brown stone, five-story dwelling
house, 61 West One Hundred and Fifth
street, which was partially destroyed by
a fire that originated in a dumb waiter
in the basement of the building, spread
to an air shaft and from there up
through the house.

The dead are: Mrs. Elizabeth French,
28 years old; her 6-month-old child
and Miss Ellen Morrissey of Albany.

Ten families lived in the house, but
there were no men on the premises
when the fire broke out. All of the
women and children on the first four
floors got out of the burning building.
The three persons who lost their lives
were the only occupants of the fifth
floor when the fire broke out.

They ran to a window overlooking
the street and made their presence in
the burning building known to the fire-
men. An attempt was made to reach
the window where the women had been
seen, but it was of no use.

TWO VESSELS LOST.
It Is Believed They Went Down With
All Aboard.

SAN FRANCISCO, March 31.—Lloyds' agent
has received word that the fine
four-masted British ship Lord Dufferin
and the British bark Benkholme are
missing. All hope for the Lord Dufferin
is abandoned. There is still some hope
for the Benkholme, but very little. The
combined crews of the ships numbered
67 men, all of whom are supposed to
have perished.

Both vessels were in the vicinity of
Montevideo on the same dates, and one
of the theories advanced is that the
ships were in collision and went down
with all on board.

Refused to Liberate Ramsay.

LIMA, Peru, March 31.—The issued
raised between Peru and the United
States with respect to the imprisonment
of Ramsay, the American sailor, is be-
coming a serious matter. The Peruvian
government refuses to accede to the de-
mand of the United States minister,
Mr. McKenzie, to set Ramsay immedi-
ately at liberty.

Fighting In the Philippine Islands.

MANILA, March 31.—An official dis-
patch from Manila, capital of the
Philippine islands, announces that in
an engagement between Spanish troops
and insurgent forces 30 insurgents were
killed and 1,097 surrendered. Three
thousand families from the insurgent
camp have reached Manila.

To Form Another Pool.

CLEVELAND, March 31.—The old range
ore men, representing all the Bessemer
mines except those on the Mesaba
range, met to form a pool to supplant
the association which recently went to
pieces. They discussed details, but did
not take any definite action. Another
meeting will be held today.

There are plenty of cheap skirts," but
we think there are few, if any, as good
values as the one we offer at \$1.98, full
width, good fit, made from figured mo-
hair, large patterns, all lengths and
waist sizes.

Our \$5 offerings include checks, plain
black mohairs, brown and green novelties,
all cheaper than you could possibly
buy the materials and have them made.
Better skirts in brocade silks and satins
at \$8, \$9.50, \$10 and \$12.50.

Muslin Underwear

Just received. You can
see a few samples of it in our
Sixth street window.

Corset covers, cambric, embroidery
trimmed, well made, good fitting, all
sizes, 25c. Other corset covers at 35c,
40c, 50c, 60c, 75c. Night robes excel-
lent values, at 50c, 75c, \$1, and up to \$2.

Drawers 25c, 50c and 75c. Our white
skirts are priced from 50c to \$4 each.
And the wonder is they can be made to
sell so cheaply, "quality, trimming and
work considered. If interested in any-
thing in the above line, you can't do
better than buy from us.

New Dress Goods.

One of the most import-
ant features of the business
is the dress goods selling.
Your mind is on this matter,
and we think we can supply
your need.

Another lot of goods received this
week, about 20 pieces, at the popular
prices, 40c and 50c. Not the goods gen-
erally offered at these figures, but
strictly up-to-date, and just as stylish
and serviceable as though you paid \$1
for them.

Another good thing in our dress goods
stock is figured mohairs, at \$1 per yard.
Larger patterns, and just the thing for
skirt or suit. If you buy your dress be-
fore looking through our stock you have
overlooked the best stock in town.

A Few Offerings.

New curtain poles, in antique, ash or
oak, wooden brackets and pole trim-
mings, nice goods, 25c each.

Princess of Wales belts, one of the
new novelties in this line, assorted col-
ors and white, 50c each.

A boy's heavy ribbed bicycle hose,
fast black, good length, and answers
the question so often asked, "Where
can I get a boy's hose that will wear a
week or more?" All sizes 25c per pair.

New laces, in oriental, net top, heavy
edge, for collar and sleeves, 30c, 40c and
50c per yard.

New ruchings in cream, black, buff,
pink, blue, 25c a yard.

Mayor Gilbert and Clerk Hanley Have Reports.

CHIEF LEADS WITH ARRESTS

Officers of the Police Force Are Not Far Behind Him—Firemen Make Records. The Clerk Had a Good Bit of Money to Handle.

Mayor Gilbert and Clerk Hanley have for many days been hard at work on their annual reports, but the clerk has passed that point where there may be cause for worry, and the mayor is rapidly approaching it.

Perhaps that portion of the mayor's report most interesting to the general public is the individual work of the officers of the police force. This is always faithfully kept, and presented to council in a form not easily misunderstood. He has not yet completed it, but enough is given to show the comparative degrees of efficiency. For the 11 months ending March 1 Chief Johnson leads off with a record of 78 arrests, and Officer Whan is next with 43. Officer Earl caught 40, but Officer Jennings has only 22 to his credit. Officer Meador arrested 37 persons before he resigned in November, and Officer Moore since his appointment in January is credited with six. Patrolman McMillen has a record of 19, and Fireman Terrance, 14, while the other firemen are credited as follows: Bryan, 1; Randolph, 3; Deidrick, 1. Constable Lyon is charged with one; Detective Meehan, 2; Detective Schaffer, 1; Sheriff Gill, 2; J. H. Moore, 2, and Special Officer Woods, 2.

During the short time he was on the force Officer Bertele succeeded in arresting 32 persons, a record of which he and his friends are very proud.

Clerk Hanley's report says that there was in the treasury March 16, 1896, \$26,908.82. He received \$84,628.38, making a total of \$111,537.20. During the year \$79,434.66 was paid out, and the balance March 15 was \$38,460.90. The bonds purchased and held for sinking fund reached \$4,361.88; balance in sinking fund \$17,034.40; general fund overdrawn, \$2,125.91; Walnut street improvement fund overdrawn, \$163.70; Avondale paving fund overdrawn, \$6.82; total overdraft, \$2,324.42.

MAY LEASE THE PARK

Bondholders Have Some Very Good Plans.

WILL BUY THE ELECTRIC LINE

And, if Possible, Obtain Possession of the East End Track—It Will Be Fitted Up in the Hope of Attracting Crowds. Negotiations Under Way.

The bond holders of the East Liverpool street railway are negotiating with the Thompsons of the East End for the purchase of their park and adjacent lands. The road, it is understood, will be bought in by the present bondholders who are eastern capitalists. The object of buying the land in question is to build a mile track and make it a feeder to their road. The park will be fitted up and made more attractive than ever. Before the road can be sold the law requires that not less than \$15,000 shall be deposited with the sheriff of the county before anyone is allowed to make a bid. This will be an easy matter for the present bondholders to do, as they have unlimited means.

In connection with this, it is understood that there has been formed in this city a syndicate, who are part owners of Rock Spring park, to also bid on the Thompson property, in order to protect the business they expect to get. The sale of the road will take place at Lisbon.

TO FEED THE PEOPLE

A Big Restaurant Will Be Built Down Town.

PARTIES LOOKING FOR PROPERTY

They Have Their Eye on Land at the Foot of Union Street—Will Depend on Trade From Excursion Parties—No Delay After the Deal Is Closed.

It was learned today that a large restaurant will be erected near the Cleveland and Pittsburg passenger station.

A company of men will be in the city this week to look at the property now owned by Mrs. John Stoeffel at the foot of Union street. The object of the restaurant at this place is to catch the large excursion travel which will drift into the city the coming season. The location for the scheme is the best that could be secured. A member of the company said:

"We have had our eye on this property for quite a time. We can buy it for no large sum, and we could erect a building so cheap that the amount of money invested would not exceed \$12,000. People will leave the grounds on the other side of the river several hours before train time, and as the terminus of the line will be at this point, we think we have a good thing if our plans can be carried out."

The men will look at the property next week, and complete arrangements. If the deal is closed work will begin at once.

Goodwin and the Dude.

One evening after the performance Nat C. Goodwin went to a restaurant for a late "bite." At the table adjoining the one where the actor sat with a couple of friends was a small group of first row youths. One of these young men had met Nat Goodwin somewhere for a minute. He wanted to show to his friends that he was acquainted with a real actor. Accordingly he brought up some topic relating to theatrical matters and made a statement which some other prominent citizen, Jr., disputed. "Well, now, I'll leave it to Goodwin," said the young man who had met Nat Goodwin—somewhere, for a minute. So he turned around and called out rather loudly: "Oh, Goodwin! I say, Goodwin, come over here a minute, will you?" The actor was startled for a moment, and then he arose. He took hold of the back of his chair, and, with all the artistic dignity at his command, he said, looking coldly at the young man, "Call me either Nat or Mr. Goodwin, if you please." Then he seated himself.—San Francisco Argonaut.

Grumbling.

Grumbling is a potent cause of ill health. It keeps the sensitive nerves constantly vibrating with discordant emotions, and not only hurts the grumbler, but every one who hears it. It really prepares the system of the grumbler for an attack of any malady that happens to be prevalent.

LIABLE TO BE SHOT.

A West End Husband Gives Fair Warning.

A West End man, who knows exactly what he is talking about, has given fair warning to a Cleveland and Pittsburg conductor on Commerce street that if he does not cease annoying his wife while he is absent from home he will fill him full of shot at the first opportunity. The lady in the case is respectable, and has been constantly annoyed by the conductor peeping in the windows while her husband is out on his run. The husband is wrought up over the affair, and will no doubt do the conductor bodily harm if his actions do not cease.

AFTER THE NEWS REVIEW.

A Saloonist Thinks It Tells Entirely Too Much Truth.

A local saloon keeper, whose doings have brought him into more or less prominence, thinks the News Review has been doing very wrong, and has not given his side of the case. There is no foundation whatever for his complaint. On the other hand there are reasons for believing that he has not been given his just and honest due, not only in this paper but by the police. Perhaps there will soon be a change.

Life in a London Shop.

"Assistants who consult their own interests will refrain from talking about their salaries." Such is a notice posted up in the dining and recreation rooms of a large drapery establishment in London. The evidence is unimpeachable, for it is that of Miss Collet, one of the assistant commissioners of the labor commission. Two things might be deduced from the possibility of such a notice existing. One is what a vast market of unemployed assistants there must be to draw from, and how hard it must be to get a situation, if men submit to be silent on the subject of their grievances, which even the fellahin of Egypt are not debarred from airing. The song which they sing in the very ears of their taskmasters is ancient their cruel treatment and scanty wage. Another thing that notice testifies to is that the life of shop assistants must be duller than one thought. Think of their standing from morning till night, with their tranquil air of politeness untroubled by the filigree and fuss of thoughtless customers, not daring to stretch or yawn as a relief to the nameless weariness of the stuffy shop, and the long day, and the gas, and the crowds of new and unsympathetic faces, the taking out and putting back of endless things, not permitted to speak to one another without risk of a fine (it is 2s. 6d. in some shops), and then to think they are not allowed that solace of every Englishman in all his troubles—viz, to grumble! Life in a mine must be easy, life in a factory bliss, life in a kitchen liberty, compared to life in a London shop or showroom.—Churchman.

Signaling From Mars.

Any citizen who is tired of mundane concerns and wants to fix his mind on something higher is invited to consider the allegation of Sir Francis Galton, made in the London Fortnightly Review, that some one on Mars is signaling to earth. The information seems not as yet to be very generally confirmed by astronomical observers, but Sir Francis is quoted as authority for the report that in one of the European observatories an apparatus has been devised for recording the Martian flashes, and that the record shows that three signals and no more are made, and that they differ, as all flashlight signals do, in the length of the flashes and of the intervals between, so that if we had the key they might be read like telegraphic messages.

Of course this is not a yarn to be swallowed whole, but the association of the name of Sir Francis Galton with it is enough to entitle it to consideration. There seems to be no intrinsic impossibility of our having relations with people in Mars. It sounds preposterous, of course; but, like other marvels, it seems preposterous chiefly because it is unusual. We have to nudge ourselves from time to time in this age of swift surprises and remind ourselves that nothing that is new to us can possibly be more marvelous than many things that have grown familiar.—Harper's Weekly.

The Force of Habit.

On the day before the execution; the visitor informs the doomed man that a visitor wishes to see him.

PARTIES LOOKING FOR PROPERTY

They Have Their Eye on Land at the Foot
of Union Street—Will Depend on Trade
From Excursion Parties—No Delay After
the Deal Is Closed.

It was learned today that a large
restaurant will be erected near the
Cleveland and Pittsburgh passenger sta-
tion.

A company of men will be in the city
this week to look at the property now
owned by Mrs. John Stoeffel at the
foot of Union street. The object of the
restaurant at this place is to catch the
large excursion travel which will drift
into the city the coming season. The
location for the scheme is the best that
could be secured. A member of the
company said:

"We have had our eye on this property
for quite a time. We can buy it for no
large sum, and we could erect a build-
ing so cheap that the amount of money
invested would not exceed \$12,000.
People will leave the grounds on the
other side of the river several hours
before train time, and as the terminus
of the line will be at this point, we think
we have a good thing if our plans can
be carried out."

The men will look at the property
next week, and complete arrangements.
If the deal is closed work will begin at
once.

Goodwin and the Dude.

One evening after the performance
Nat C. Goodwin went to a restaurant
for a late "bite." At the table adjoining
the one where the actor sat with a
couple of friends was a small group of
first row youths. One of these young
men had met Nat Goodwin somewhere
for a minute. He wanted to show to his
friends that he was acquainted with a
real actor. Accordingly he brought up
some topic relating to theatrical matters
and made a statement which some other
Prominent Citizen, Jr., disputed. "Well,
now, I'll leave it to Goodwin," said the
young man who had met Nat Goodwin
—somewhere, for a minute. So he turned
around and called out rather loudly:
"Oh, Goodwin! I say, Goodwin, come
over here a minute, will you?" The ac-
tor was startled for a moment, and then
he arose. He took hold of the back of
his chair, and, with all the artistic dig-
nity at his command, he said, looking
coldly at the young man, "Call me ei-
ther Nat or Mr. Goodwin, if you please."
Then he seated himself.—San Francisco

Grumbling.

Grumbling is a potent cause of ill
health. It keeps the sensitive nerves
constantly vibrating with discordant
emotions, and not only hurts the grum-
bler, but every one who hears it. It re-
ally prepares the system of the grum-
bler for an attack of any malady that hap-
pens to be prevalent.

LIABLE TO BE SHOT.

A West End Husband Gives Fair
Warning.

A West End man, who knows ex-
actly what he is talking about, has
given fair warning to a Cleveland and
Pittsburg conductor on Commerce
street that if he does not cease annoy-
ing his wife while he is absent from home
he will fill him full of shot at the first
opportunity. The lady in the case is re-
spectable, and has been constantly an-
noyed by the conductor peeping in the
windows while her husband is out on
his run. The husband is wrought up
over the affair, and will no doubt do the
conductor bodily harm if his actions do
not cease.

AFTER THE NEWS REVIEW.

A Saloonist Thinks It Tells Entirely Too
Much Truth.

A local saloon keeper, whose doings
have brought him into more or less
prominence, thinks the NEWS REVIEW
has been doing very wrong, and has not
given his side of the case. There is no
foundation whatever for his complaint.
On the other hand there are reasons for
believing that he has not been given his
just and honest due, not only in this
paper but by the police. Perhaps there
will soon be a change.

Life In a London Shop.

"Assistants who consult their own
interests will refrain from talking about
their salaries." Such is a notice posted
up in the dining and recreation rooms
of a large drapery establishment in Lon-
don. The evidence is unimpeachable,
for it is that of Miss Collet, one of the
assistant commissioners of the labor
commission. Two things might be de-
duced from the possibility of such a no-
tice existing. One is what a vast mar-
ket of unemployed assistants there must
be to draw from, and how hard it must
be to get a situation, if men submit to
be silent, on the subject of their Egypt-
ian or the fellow of his grievance
are not debarrd from airing. The song
which they sing in the very ears of their
taskmasters is anent their cruel treat-
ment and scanty wage. Another thing
that notice testifies to is that the life of
shop assistants must be duller than one
thought. Think of their standing from
morning till night, with their tranquil
air of politeness untroubled by the fidgets
and fuss of thoughtless customers, not
daring to stretch or yawn as a relief to
the nameless weariness of the stuffy
shop, and the long day, and the gas,
and the crowds of new and unsympa-
thetic faces, the taking out and putting
back of endless things, not permitted to
speak to one another without risk of a
fine (it is 2s. 6d. in some shops), and
then to think they are not allowed that
solace of every Englishman in all his
troubles—viz, to grumble! Life in a
mine must be easy, life in a factory
bliss, life in a kitchen liberty, compared
to life in a London shop or showroom.—

Signaling From Mars.

Any citizen who is tired of mundane
concerns and wants to fix his mind on
something higher is invited to consider
the allegation of Sir Francis Galton,
made in the London Fortnightly Re-
view, that some one on Mars is signal-
ing to earth. The information seems not
as yet to be very generally confirmed by
astronomical observers, but Sir Francis
is quoted as authority for the report
that in one of the European observato-
ries an apparatus has been devised for
recording the Martian flashes, and that
the record shows that three signals and
no more are made, and that they differ,
as all flashlight signals do, in the length
of the flashes and of the intervals be-
tween, so that if we had the key they
might be read like telegraphic messages.

Of course this is not a yarn to be
swallowed whole, but the association to
the name of Sir Francis Galton with it
is enough to entitle it to consideration.
There seems to be no intrinsic impossi-
bility of our having relations with peo-
ple in Mars. It sounds preposterous, of
course; but, like other marvels, it seems
preposterous chiefly because it is un-
usual. We have to chide ourselves from
time to time in this age of swift sur-
prises and remind ourselves that noth-
ing that is new to us can possibly
be more marvelous than many things
that have grown familiar.—Harper's
Weekly.

The Force of Habit.

"Do you know who he is?" asks the

call tomorrow."—Strand Magazine.
